

## PRIME HOGS PAID GOOD PRICES HERE

Pays to Finish Swine Properly  
and Sell on Memphis  
Stockyards.

That it pays to finish hogs properly and to patronize the Dixie National Stock yards at Memphis, was clearly shown Tuesday, when a shipment of 60 hogs brought the record price of 15¢ cents. The hogs were shipped by the James Alexander Construction company's plantation at Somerville, Tenn., and were sold to Kenneth, Gibson & Murray, order buyers, through Ruffey & Ryan, commission company, which maintains offices at the Memphis yards. "We know we got more net money than we would have at St. Louis or Chicago," said Richard M. Crane, manager of the Alexander plantation. "The Memphis facilities equal any in the country. Our hogs brought the record price because they had been properly finished and were uniform."

The hogs were finished on tankage and corn and gained an average of three pounds daily during the 40 days finishing. The Memphis market has given great impetus to small farmers' raising feeder pigs, because there is a ready and good market for such stock.

## Prison So Nice Men Break In

PORT AR PRINCE, Miss., Jan. 22.—Officers of the United States marine corps who have charge of the penitentiary here, have had to issue special orders to keep the natives from breaking into their model jail.

Recently a check roll call of prisoners showed an excess of five over the number regularly committed there by law. Investigation showed the five had sneaked in with a returning road gang, lured by the prospect of three good meals a day and with comfortable cell in which to sleep. Now every party of prisoners working outside the walls is carefully counted before it is admitted.

### "RED" DAVIS QUILTS POLICE TO CONTRACT

Ser. Lewis J. (Red) Davis, of Capt. Mike Kehoe's police relief, tendered his resignation to Police Chief Joe Burney Wednesday night. The resignation is effective immediately.

"Red" is known throughout Memphis as one of the best known and most popular members of the police department. He is the son of the late W. C. Davis, former chief of police.

"Red" served on the department for 10 years, excepting two years he spent in the army. He was the first member of the Memphis police department to enlist when war broke out with Germany. He left Memphis in the machine gun company which was recruited here by Lieut. Col. William J. Ball, who then was a captain. "Red" saw hot service in France, and when he came back from the trenches it was his "top kick" or first sergeant of the 113th machine gun company, attached to the Thirtieth division, which tore the Hindenburg line.

"Red" was made a sergeant when he returned to his old job of policing, for his work as motorcycle officer and emergency patrolman had entitled him to the promotion.

"Red" will become part owner and manager of the contracting firm of W. Morris & Co., Nashville, Tenn. The head of the company is his brother-in-law.

### SWISS PAPERS FAVOR KAISER'S EXTRADITION

GENEVA, Jan. 22.—Swiss newspapers, following the lead of the Geneva Tribune, favor the extradition of former Emperor William from Holland. The consensus of editorial opinion is that owing to the exceptional crime of an international character charged against him, Holland would not be guilty of abusing the traditions of neutral countries, as in this case Count Hohenlohe is not a political refugee.

### HUNTER RE-ENLISTS.

### BRYAN ON RECORD AS AGAINST TWO LEADERS

RICHMOND, Va., Jan. 22.—Declaring he had evidence to prove that an organized effort was being made by "illegitimate interests" to nominate a "wet" candidate for president on a "wet" platform, William J. Bryan was on record in opposition to Gov. Edwards, of New Jersey, and in favor of a new Democratic national chairman, if Homer S. Cummings' address at a banquet Tuesday night in Gov. Edwards' honor correctly expressed his attitude.

Mr. Bryan assailed Gov. Edwards bitterly in speeches here and at Norfolk yesterday and last night, and concluding his remarks, referred to Chairman Cummings' attendance at what he termed the New Jersey governor's "coming out" banquet.

## A BOTTLE OF MUCO-SOLVENT IN EVERY MEMPHIS HOME—CAMPAIGN BY THE MANUFACTURERS

An Open Letter To the Memphis Druggists Encouraging Their  
Support to Prevent a Recurrence of the  
"Flu" Epidemic Here.

The day following the editorial headed "The Hessig-Ellis Drug Company Speaks On Influenza, and How It Cared for the Health of Their Employees," the wife of a former mayor called us over the phone and stated that she and her husband had read every word of this editorial and endorsed everything that was said. That recently they were in San Francisco and the Mayor developed a sore throat and cold. They tried all San Francisco drug stores, and, failing, got on the train and made a special trip to Oakland, where they had heard they might be able to find Mucosolvent. They knew if they could get Mucosolvent quick relief was assured. Since that time "We have never traveled without a bottle of Mucosolvent, and we suggest that you send a salesman to the coast to establish distribution and to let the people know of the wonderful value of Mucosolvent."

A prominent preacher called at our office and related his experience, and stated he wanted to do more to let his friends know of Mucosolvent.

Gentlemen, there is something in Mucosolvent above the average medicine. There is more to our interest in promoting the use and knowledge of Mucosolvent than the actual money made. We want you to sense this feeling and get with us in our campaign for a bottle of Mucosolvent in every Memphis home. It would be well if your customers would buy three bottles at a time. A stock of Mucosolvent in the house is just as necessary as meat and flour. Our workers keep a bottle on their desks and if one gets wet or chilled, just a swallow or two of Mucosolvent and they are guaranteed against the "flu," pneumonia or sore throat. Every business man should keep a bottle on his desk and take a swallow at the first symptom of cold. You, of course, know that Mucosolvent is free from opium or narcotics of any kind, and no habit-forming drug is contained therein. A child could drink a whole bottle and it would not hurt. You ought to keep a bottle on your desk, and we are having Mr. Robinson send you a bottle with our compliments for that purpose.

The winter is not over and the danger of an influenza epidemic has not passed. Notice the sneezing, sniffing and coughing in picture shows, theaters, churches, schoolrooms, etc. We believe that we can prevent an epidemic if we can get Mucosolvent properly distributed, and an understanding of its value, and we want you to help us.

If you have not received one of the counter display cards, "Mother's Favorite," tell Julius, Manager of the City Department, to send you one—he will be glad to do it. Buy a three or six-dozen lot; there is an extra discount to you on this quantity, and make a window display.

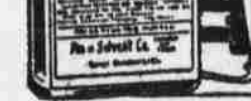

The large size package has been exhausted, but we have sufficient of the small to take care of your immediate needs.

Owing to the scarcity of a certain leaf that is used in the manufacture of Mucosolvent, there is a limit to our supply until the next crop is gathered. We advise you to keep a good stock of Mucosolvent on hand. The demand from Michigan, Wisconsin, Illinois, West Virginia, Maryland and adjoining territory is getting heavier every day, and we want Memphis to be taken care of, and to underwrite that you must put in a good stock.

This letter is addressed to you particularly to ask you to assist us in this educational campaign, and to carry the message of this editorial on Mucosolvent to the people of Memphis, and to make real the slogan: "A bottle of Mucosolvent in every Memphis home."

Yours very truly,

**HESSIG-ELLIS DRUG COMPANY**  
MEMPHIS, TENN.
